Thimphu, Bhutan

PERSONAL STATEMENT

Curious and motivated Computer Science undergraduate with skills in Artificial Intelligence, Machine Learning, and Full-Stack Development. Experienced in data annotation, dataset preparation, and building AI-driven applications through academic projects and internships. Proficient in modern web technologies, data analysis, and collaborative software development. Passionate about applying AI solutions to real-world problems while demonstrating strong problem-solving, teamwork, and communication skills.

SKILLS

Technical Skills

- AI & Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP), Data Preprocessing, Model Training
- Frontend: HTML, CSS, Tailwind CSS, Vue.js, React.js
- Backend: Node.js, GO, Flask
- Database: MongoDB, MySQL
- Data Analysis & Visualization: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization
- Tools & Platforms: Git/GitHub, Linux, AWS
- UX/UI Design: Figma, Canva

Soft Skills

- Project Management
- Problem-solving
- Critical Thinking
- Teamwork
- Communication
- Willingness to learn
- Adaptability
- Responsibility

EDUCATION

BSc in Computer Science

August, 2022 – June, 2026

Gyalpozhing College of Information Technology

Major Courses

- Artificial Intelligence and Machine Learning (CSA203)
- Deep Learning (CSA301)
- Natural Language Processing (CSA402)
- Data Analytics and Visualization (CSA202)
- Applied Data Structures and Algorithms (CSA201)
- Data Analytics and Visualization (CSA202)

Pure Science (Class XII)

2020 – 2022

Motithang Higher Secondary School

EXPERIENCE

INTERNSHIP EXPERIENCE

Data Annotation & Project Intern

June, 2025 – July, 2025

DrukSmart Pvt. Ltd.

- Annotated and labelled datasets to support machine learning model training and evaluation.
- Developed strong attention to detail and analytical skills through large-scale data annotation tasks.
- Gained practical exposure to real-world AI/ML project workflows and data preparation processes.

UI/UX & Project Intern

December, 2023 – January, 2024

DrukSmart Pvt. Ltd.

- Trained in component-based frontend development using Vue.js and Pinia state management.
- Developed reusable and scalable UI components for a real-world project in collaboration with the Pema Secretariat.
- Assisted the development team in implementing frontend features and maintaining project workflows.
- Strengthened skills in frontend development, project collaboration, and Agile-based teamwork.
- Performance recognized with a recommendation letter from the organization.

LEADERSHIP EXPERIENCE

PRJ303 Semester Project Team Lead

February, 2025 – June, 2025

Gyalpozhing College of Information Technology (GCIT)

- Managed a team working on an AI-based application as part of the semester project.
- Oversaw project planning, milestone tracking, and technical discussions.
- Supported team members in integrating AI models with system components.
- Ensured project deliverables were completed within deadlines and aligned with academic requirements.

PRJ202 Semester Project Team Lead

February, 2024 – June, 2024

Gyalpozhing College of Information Technology (GCIT)

- Led the development team in building a machine learning-based application for image analysis.
- Organized team meetings, delegated responsibilities, and monitored project progress.
- Assisted in dataset preparation, model training coordination, and testing activities.
- Ensured smooth collaboration among team members during the development and experimentation phases.

PRJ101 Semester Project Team Lead

February, 2023 – June, 2023

Gyalpozhing College of Information Technology (GCIT)

- Led a team of students in developing a web-based institutional system as part of the semester project.
- Coordinated task distribution, progress tracking, and team collaboration to ensure timely completion.
- Contributed to frontend development and system interface design.
- Ensured project requirements were implemented effectively while maintaining teamwork and communication.

CLUBS AND EXTRACURRICULAR EXPERIENCE

Executive Lead – Content Creation

March, 2023 – November, 2024

GCIT Literary and Interactive Club (LIA)

- Managed and created digital content for the club's social media platforms, including TikTok, Instagram, and Facebook.
- Directed the content creation team to maintain consistent online engagement and outreach.
- Co-hosted GCIT Seniors' Night 2024, gaining experience in event coordination and public engagement.
- Strengthened leadership, teamwork, and communication skills through club activities.

Member - Rovers Club

August, 2023 – Present

GCIT Literary and Interactive Club (LIA)

- Engaged in inter-college exchange programs, promoting collaboration and networking with students from different institutions.
- Participated in volunteering activities such as college and community cleaning campaigns and awareness programs.

VOLUNTEER

Event Coordinator – Winter STEM Forum

December, 2022

Women in STEM Bhutan

- Assisted in managing and organizing the Winter STEM Forum: “Rethinking STEM Education.”
- Coordinated event logistics and supported panel discussions involving professionals from STEM industries.
- Contributed to promoting awareness and engagement in STEM education among students and the public.

PROJECTS

Dyslexia-Friendly Rewriter

August, 2025 – November, 2025

Role: AI/ML Engineer and NLP Model Developer

- Developed an AI-powered text simplification system using transformer models (T5-small, BERT, and BART) to rewrite complex sentences into clearer and more accessible text for readers with dyslexia.
- Trained and evaluated models using datasets such as WikiLarge and WordNet, achieving ~85% accuracy, and selected T5-small for its balanced performance and efficient sentence generation while preserving meaning.
- Improved reading accessibility by generating simplified sentences and providing plain-language explanations for difficult words, helping users better understand complex written content.

MovieRank

June, 2025 – July, 2025

Role: Full-Stack Developer

- Built a full-stack web application that allows users to discover, rate, and review movies by integrating movie data from the OMDb API.
- Implemented a MongoDB database to store user ratings, reviews, and movie metadata, supporting dynamic data retrieval and review management.
- Created an interactive platform for users to explore movies and share opinions, demonstrating practical integration of APIs, databases, and modern web technologies.

Smart Sort

February, 2025 – June, 2025

Role: Project Lead and AI Developer

- Developed an AI-powered waste classification system using object detection to identify recyclable waste categories through real-time webcam detection or image input.
- Trained and evaluated the model on labeled waste image datasets to classify seven recycling categories, achieving ~90% detection accuracy in identifying different plastic types and non-waste items.
- Promoted sustainable waste management by integrating audio-based recycling recommendations to guide users on proper disposal and reduce recycling contamination.

Facial Age Analyzer

February, 2024 – June, 2024

Role: Deep Learning Model Trainer and Integrator

- Developed a deep learning system using Convolutional Neural Networks (CNNs) to estimate human age ranges from facial images and live camera input.
- Trained the model on publicly available facial datasets and achieved approximately 80% prediction accuracy during testing and evaluation.
- Demonstrated potential applications in age verification systems for regulated environments such as retail, entertainment, and security.

YouTube Comment Sentiment Analysis

June, 2024 – November, 2024

Role: Machine Learning Developer

- Developed a machine learning system that analyzes comments from a YouTube video link and classifies them into positive, negative, or neutral sentiments using Natural Language Processing techniques.
- Applied NLP preprocessing techniques, including text cleaning, tokenization, and feature extraction, and trained a sentiment classification model, achieving ~90% accuracy in sentiment prediction.
- Enabled automated analysis of viewer feedback, helping identify public opinion trends and better understand audience responses to video content.

GCIT No-Due System

February, 2023 – June, 2023

Role: Project Lead and Frontend Developer

- Developed a web-based system to automate the student clearance process across multiple departments at GCIT.
- Implemented a database-backed workflow using MySQL and web technologies to manage clearance requests and approvals digitally.
- Reduced manual paperwork and processing time by enabling departments to review and approve student requests online.

CERTIFICATIONS

Google Data Analytics | Issued by: Google (Coursera)

2026

- Foundations: Data, Data, Everywhere
- Ask Questions to Make Data-Driven Decisions
- Prepare Data for Exploration
- Process Data from Dirty to Clean
- Analyze Data to Answer Questions
- Share Data Through the Art of Visualization
- Introduction Data Analysis using Python
- Google Data Analytics Capstone: Complete a Case Study

Developing skills in data cleaning, data analysis, data visualization, and statistical analysis using tools such as spreadsheets, SQL, and R to derive insights and support data-driven decision making.

Google UX Design | Issued by: Google (Coursera)

October, 2026

- Start the UX Design Process: Empathize, Define, and Ideate
- Foundations of User Experience (UX) Design
- Build Wireframes and Low-Fidelity Prototypes
- Conduct UX Research and Test Early Concepts
- Create High-Fidelity Designs and Prototypes in Figma
- Build Dynamic User Interfaces (UI) for Websites
- Design a User Experience for Social Good & Prepare for Jobs

Gained practical skills in user research, wireframing, prototyping, and building dynamic interfaces, following the full UX design process from empathizing and defining problems to testing and delivering user-centered designs.

AWS Academy Cloud Foundations | Issued by: AWS Academy

October, 2024

Learned cloud computing fundamentals, AWS core services, and best practices for deploying, managing, and scaling cloud-based applications.

ACHIEVEMENT

Competitions & Achievements

- Top 3 Team, National Startup Weekend 2025 – Department of Employment & Entrepreneurship, MoICE / Supported by Government of India (3-day competition, 2025)
- Finalist, DevForge's Dragon's Lair Start-Pitching Competition – Gyalpozhing College of Information Technology (Nov 2024)

Recognition & Leadership

- Certificate of Appreciation, Humanitarian – Motithang Higher Secondary School (2021)
- Leadership Certificate, Class Captain – Motithang Higher Secondary School (2021)

Participant & Cultural Events

- Participant, Menstrual Hygiene Day Celebration – Bhutan (May 2024)
- Participant, Winter STEM Forum – “Rethinking STEM Education” (Dec 2022)
- Participant, LIVE YOUR GOALS Festival – Bhutan Football Federation / FIFA (Girls' Football, Jul 2014)

WORKSHOPS & SEMINARS

- Participant, Women's Hackathon – Department of Employment & Entrepreneurship (DoEE), MoICE in collaboration with UNDP Bhutan (3-day hackathon, April 2026)
- Participant, National Startup Weekend 2025 – Department of Employment & Entrepreneurship, MoICE / Supported by Government of India (3-day workshop, 2025)
- Participant, Component-Based UI Development using Vue.js & Pinia – DrukSmart Pvt. Ltd. (1-day workshop, Dec 2023)
- Participant, Fundamentals of IT Course – RIGSUM Institute of Technical Education & Management (1-month course, Jan 2020)
- Participant, Solar Challenge Badge Programme – Scouts Go Solar Thailand (3-day program, July 2019)
- Participant, Summer Camp for Nazhoen/Nachung – Thimphu Throme Scouts Association (3-day camp, July 2017)

LANGUAGES

- Dzongkha (Native)
- English (Professional working proficiency)
- Sherpa (Mother Tongue)
- Nepali (Elementary level)
- Hindi (Elementary level)
